- **89 autores** (Portugal, Alemanha, Austrália, Brasil, Espanha, França, Itália, Nova Zelândia, Suécia)

Visão global e actual de problemas/soluções para o sector ao nível da sua sustentabilidade e da cadeia de fornecimento

Publicação da Elsevier/Academic Press

Improving Sustainable Viticulture and Winemaking Practices

Ferramenta para todos os interessados no sector vitivinícola e em soluções mais sustentáveis, boas práticas e novas tecnologias em Viticultura e Enologia

- Auxilia na identificação de problemas e soluções ao nível da gestão de recursos (p.e. solo, água, energia, aditivos e auxiliares tecnológicos)
- Identificação de boas práticas em Viticultura e Enologia
- Gestão de subprodutos e sua reciclagem
- Controlo da qualidade e certificação
- Legislação relevante
- Estratégias para a circularidade
- Métricas para o sector para otimizar gestão

Improving Sustainable Viticulture and Winemaking Practices

Piergiorgio Comuzzo

“Sustainable Wine Production”

CHAPTER

Wine quality production and sustainability*

10

Pierre-Louis Teissedre¹, Sofia Catarino² and Piergiorgio Comuzzo³¹Université de Bordeaux, ISVV, Unité de Recherche Œnologie EA 4577, USC 1366 INRA, Bordeaux INP, Villenave d'Ornon, France; ²LEAF – Centre Linking Landscape, Environment, Agriculture and Food Research Center, Instituto Superior de Agronomia, University of Lisbon, Lisbon, Portugal; ³Department of Agricultural Food, Environmental and

CHAPTER

Water management toward regenerative wineries

11

Margarida Oliveira^{1,2}, Artur Saraiva^{1,2}, Milena Lambri³, Joel Rochard⁴, Rita Fragoso¹, Elia Romanini³, Pedro Hipólito^{5,6}, Capri Ettore³ and Elizabeth Duarte¹¹LEAF - Linking Landscape, Environment, Agriculture and Food, TERRA, Instituto Superior de Agronomia, Universidade de Lisboa, Lisboa, Portugal; ²ESAS, UIIPS, CIEQV, Instituto Politécnico de Santarém, Quinta do Galinheiro, Santarém, Portugal; ³DiSTAS, Department for Sustainable Food Process, Università Cattolica del Sacro Cuore, Piacenza, Italy; ⁴VitisPlanet, Bouilly, France; ⁵Instituto Superior de Agronomia, Universidade de Lisboa, Lisboa, Portugal; ⁶HUVA, SA – Herdade da Mingorra, Beja, Portugal

CHAPTER

Energy use and management in the winery

12

Matia Mainardis¹ and Rino Gubiani²¹Department Polytechnic of Engineering and Architecture, University of Udine, Udine, Italy; ²Department of Agricultural, Food, Environmental and Animal Sciences, University of Udine, Udine, Italy

CHAPTER

Microbiological control of wine production: new tools for new challenges

13

M. Carmen Portillo and Albert Mas

Department de Bioquímica i Biotecnologia, Facultat d'Enologia, Universitat Rovira i Virgili, Tarragona, Spain

CHAPTER

Sustainable use of wood in wine spirit production

14

Sara Canas^{1,2}, Ilda Caldeira^{1,2}, Tiago A. Fernandes^{3,4}, Ofélia Anjos^{5,6,7}, António Pedro Belchior¹ and Sofia Catarino^{8,9}¹Instituto Nacional de Investigação Agrária e Veterinária, Dois Portos, Portugal; ²MED – Mediterranean Institute for Agriculture, Environment and Development, Instituto de formação avançada, Universidade de Évora, Évora, Portugal;³CQE – Centro, (IST-ID), Unives Aberta, Lisboa, Portugal; ⁴CI Portugal; ⁵Cent. Landscape, Emv Lisbon, Portugal;

CHAPTER

Innovative processes for the extraction of bioactive compounds from winery wastes and by-products

15

Gianpiero Pataro¹, Daniele Carullo¹ and Giovanna Ferrari^{1,2}Industrial Engineering, University of Salerno, Fisciano, Salerno, Italy; ²ProdAI Scari – University of Salerno, Fisciano, Salerno, Italy

CHAPTER

The role of pressure-driven membrane processes on the recovery of value-added compounds and valorization of lees and wastewaters in the wine industry

16

Alexandre Giacobbo^{1,2}, Andréa Moura Bernardes¹ and Maria Norberta de Pinho^{2,3}¹Post-Graduation Program in Mining, Metallurgical and Materials Engineering, (PPG3M), Federal University of Rio Grande do Sul (FURG), Agronomia, Porto Alegre, Rio Grande do Sul, Brazil; ²Center of Physics and Engineering of Advanced Materials, CeFEMA, Instituto Superior Técnico, University of Lisbon, Lisbon, Portugal; ³Chemical Engineering Department, Instituto Superior Técnico, University of Lisbon, Lisbon, Portugal

CHAPTER

Sustainable approach to quality control of grape and wine

17

Piergiorgio Comuzzo, Andrea Natolino and Emilio Celotti

Department of Agricultural Food, Environmental and Animal Science, University of Udine, Udine, Italy
